As a...

Patient

I want to...

Register and log in to an account

So I can...

Access the clinic's booking system
securely

As a...

Patient

I want to...

Book a clinic appointment online

So I can...

Avoid walking in and waiting in line

As a...

Patient

I want to...

Fill out an appointment form and
choose an available schedule

So I can...

Pick a time that fits my class or work

As a...

Patient

I want to...

Receive a confirmation after submitting
my appointment

So I can...

Know my booking was successful

As a...
Patient

I want to...

Cancel or reschedule my appointment

So I can...

**Adjust my plans when something
comes up**

As a...

Patient

I want to...

Join a virtual queue on the day of my
appointment

So I can...

Avoid waiting physically in the
clinic

As a...

Patient

I want to...

See my current position and estimated
waiting time in the queue

So I can...

Plan when to head to the clinic

As a...

Patient

I want to...

Receive a notification when I'm next in line

So I can...

Proceed to the clinic on time

As a...

Patient

I want to...

Receive notifications about my appointment status (confirmed, cancelled, completed)

So I can...

Stay informed without needing to check manually

As a...

Patient

I want to...

View a list of my unread notifications

So I can...

Avoid missing any important
updates

As a...

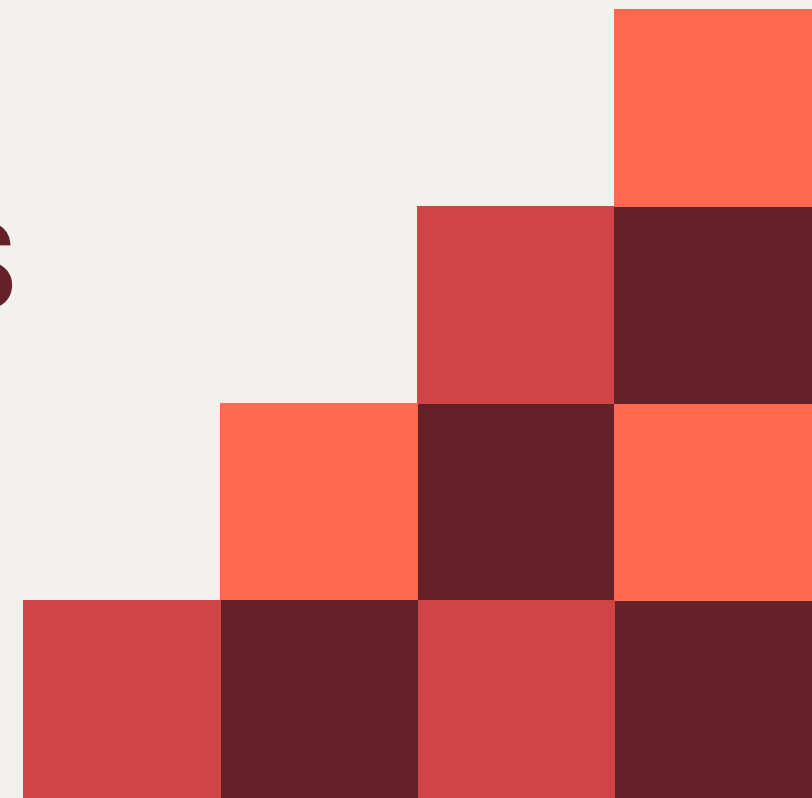

Clinic Staff

I want to...

Log in to a staff dashboard

So I can...

Manage appointments and queues
securely

As a...

Clinic Staff

I want to...

Create and update available clinic
schedules

So I can...

Ensure patients only book into valid,
available time slots

As a...

Clinic Staff

I want to...

View all incoming appointments

So I can...

Prepare for the day's patient load

As a...

Clinic Staff

I want to...

Confirm or reject appointments

So I can...

Manage clinic capacity accurately

As a...

Clinic Staff

I want to...

Manage the virtual queue and call the next patient

So I can...

Keep patient flow organized

As a...

Clinic Staff

I want to...

Notify the next patient in line

So I can...

Ensure patients know to come in for
their consultation.

As a...

Clinic Staff

I want to...

Start and mark a consultation as
completed or no-show

So I can...

Know patients records stay
accurate

As a...

Clinic Staff

I want to...

View patient records

So I can...

Reference relevant health history
during a visit

As a...

Clinic Staff

I want to...

Prevent duplicate queue entries

So I can...

**Keep the queue accurate and avoid
confusion during patient calling**

As a...

Super Admin

I want to...

Add or delete clinic staff accounts

So I can...

Manage who has access to the
system

As a...

Super Admin

I want to...

View patient records

So I can...

Oversee clinic operations when
needed

As a...

Super Admin

I want to...

View an audit log of important system activities

So I can...

Track accountability across the system

As a...

Super Admin

I want to...

View audit logs that record the actor,
action, and date/time of each activity

So I can...

Trace accountability for every
important action in the system

As a...

Super Admin

I want to...

Filter audit logs

So I can...

Quickly find specific actions or events.
